

HOW TO PROTECT YOUR CHILD IN AN INCREASINGLY (ANTI-)SOCIAL MEDIA WORLD

Cyber Predators. Bullies.

Join us **Tuesday, April 14** immediately before the monthly FoSN meeting to hear from Chicago Police Detective Charles Hollendoner. He will share important information for parents, including tips on keeping your child safe from cyber predators and bullies.

Detective Hollendoner has investigated hundreds of cases involving sexual crimes and/or abuse of children in Chicago and Cook County. To help prevent crimes against children, he conducts internet safety presentations for students, parents and community leaders throughout Chicago.

Warning: The internet safety talk will include frank discussion about keeping kids safe from sexual predators. It is not appropriate for children. We ask that you make other arrangements for your child or take advantage of the free child care Youth Guidance is providing for children ages 5 and up.

To ensure that we have enough child care providers and pizza, please RSVP to nicoleheller@hotmail.com with the number of adults and children in your group who will be attending.

Tuesday, April 14, 2015
