

Skinner North Wellness Committee

Parent Workshop

Tuesday, February 27, 2018

5:30-7:00 PM

Multiple-award-winning author **Carrie Goldman** has garnered national and international acclaim for her work on bullying and social conflict. The Wellness Committee is pleased to welcome her to Skinner North to discuss ways we can help guide our children through social situations with their peers.

In her book, Goldman presents proven strategies and concrete tools for teaching children how to **speak up** and **carry themselves with confidence**; call each other out on cruelty; resolve conflict; cope with teasing, taunting, physical abuse, and cyberbullying.

As a mother, Goldman calls on us all—families, schools, communities, retailers, celebrities, and media—to fiercely examine our own stereotypes and embrace our joint responsibility for creating a culture of acceptance and respect.

Please join us in the **Skinner North auditorium** that evening. Her book, *Bullied*, will be available that evening for purchase. All parents are welcome; please email skinnernorthwellness@gmail.com if you have questions or any accommodation requests.
