

I. 2016-2017 Year Recap

- a) Little Library- needs more awareness, consider shelves labeled for parenting books and children's books and perhaps purchase a series that may be appealing to parents.
- b) SN Wellness Website- moving along smoothly, members wonder whether parents realize it is available, consider linking to the main Skinner North website next year.
- c) Tuesday's Child- workshop was very well attended and would like to attempt to do it again next year on the grant. Open the sign-up sheet again to parents that were unable to get a slot this school year.
- d) Parenting Perspectives- well attended and parents have already expressed interest in more workshops. Consider parenting classes in Fall and Winter (request whether funding would be available via FoSN)
- e) Yoga/Mindfulness Night- feedback was extremely positive and parents are already asking Wellness Committee to do it again.

II. 2017-2018 School Year Planning

- a) Parent Survey- would like to send another survey out before the end of the school year to help determine parent interest. Possible topics include training, Health and Wellness Fair, Special Education & Disability workshops, and Internet Safety.
- b) FoSN budget- some members plan on attending the next FoSN meeting to ask for budget for the following year in that amount of \$1,000 for parenting workshops, after school events, and other items that may be of interest to parents.

c) Members also plan on asking FoSN whether Wellness Committee may seek out grants to solely fund Wellness Committee next year
